ABOUT US

We began manufacturing steel products in 1955. A family run business now in its third generation, we take enormous pride in our work. We continue to produce high quality agricultural steel galvanised products such as farm gates, posts, hangers, feeders, troughs, cattle crushes and building supplies.

Striving for excellence is an important part of professionalism in any business. It involves putting quality into everything you do. It has been our policy since starting out to keep reinvesting in the latest production equipment. With our skilled and dedicated team, we are continuously improving our quality so that we can provide our customers with the best products possible.

WHAT SETS US APART

We are constantly upgrading our products and processes in order to make the best gates on the market at all times!

Gate Front

We manufacture the 'gate front' separately from 41.2 x 1.75mm tube which is slotted into the 41.2 x 1.5mm frame, making the joining of the frame and the gate front 3.25mm thick.

- Our gate front is no less than 1.5mm at the bend after the bending process, ensuring sturdiness and durability.
- Thicker material will attract more zinc during the galvanising process, ensuring a long life span for the gate.

Reinforced Corner

In 2019 we introduced reinforced corners from 12ft upwards on our Heavy Duty M8 Gate and

new M5 5 Bar Gate, increasing the strength and structure of the entire gate.

Animal welfare is paramount to MMG and we are constantly looking at ways of making our gates safer. An example of this can be seen in our new M4, M6 and Sheep gates where the vertical is constructed from 40 x 20mm section which has radius corners and no edges whatsoever making it very safe. We do not use channels in any of our gates for this reason.

We have resisted the cheaper option of using a hollow tube as the gate heel and have carried on with the traditional solid heel. The reason we do this is simply because it's better! As the gate is opened and closed, the zinc will eventually rub off and corrosion will start, obviously the solid 32mm heel will outlast the hollow tube.

Double M4 Field Gate with Drop Bolt

- Hot dip galvanised gate
- Frame: 41.2 x 1.5mm
 - Fillerbars: 28 x 1.2mm
 - Vertical Section: 40 x 20 x 1.5mm with radius corners
 - Gate Front: 41.2 x 1.75mm

NOTE: Drop bolt can be used for all gates

Sizes Available
10', 12', 14', 16', 18', 20'

Double M4 Sheep Gate with Centre Closing Post

- Centre Closing Post
- Material: 90 x 90mm Box Iron
 - Height: 64" / 5' 4"
 - Sleeves are also available

CAN BE USED FOR ALL GATES!

Wicket Gate

- Hot dip galvanised gate
- Frame: 32 x 1.5mm
 - Fillerbars: 25 x 1.2mm

Sizes Available
2.5' x 3', 3' x 3'

ODD SIZE GATES MADE TO ORDER

Sheep Hurdles

Hot dip galvanised hurdles

- Pins: 10mm
- Frame: 25 x 25 x 1.5mm Box
- Fillerbars: 25 x 25 x 1.2mm Tube

Sizes Available
4', 5', 6', 8'

Hangers

- Hot dip galvanised hangers

- 1 5/8" Wood Hanger
- 2 1/2" Concrete Hanger
- 3 20mm Threaded Hanger
- 4 RSJ Hanger (Bottom)
- 5 RSJ Hanger (Top)

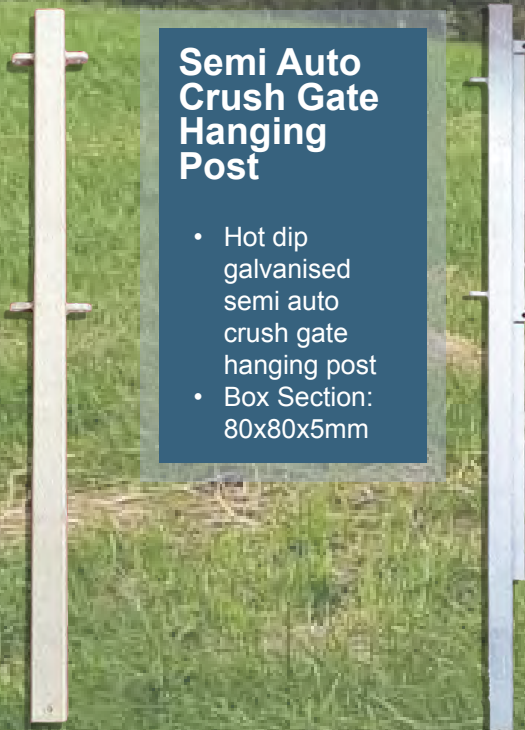

Posts

- Height: 7'
- Diameter: 4"
- Custom posts made to order on request

- 1 Hanging Post
- 2 Double Hanging Post 90°
- 3 Double Hanging Post 180°
- 4 Closing Post
- 5 Double Closing Post
- 6 Centre Closing Post

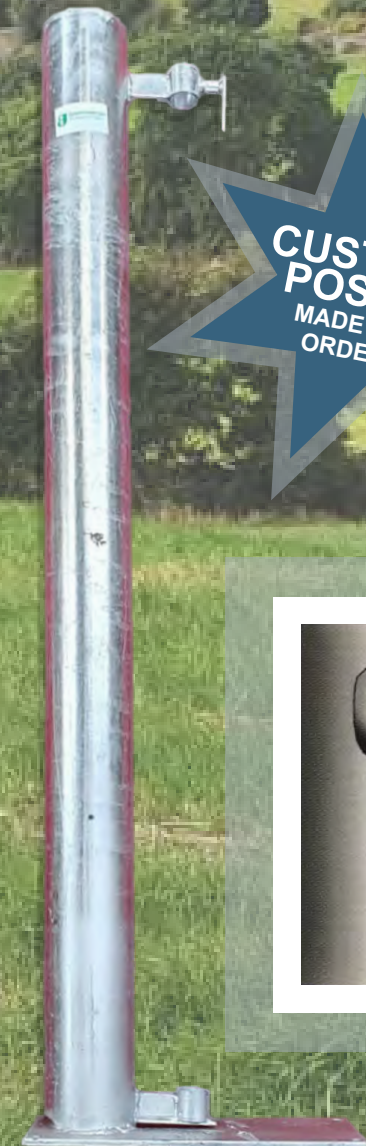

Crush Penning Post

- Hot dip galvanised crush post
- Box Section: 80x80x5mm

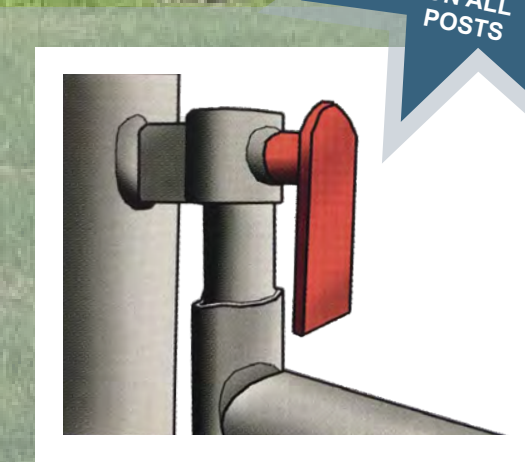

Semi Auto Crush Gate Hanging Post

- Hot dip galvanised semi auto crush gate hanging post
- Box Section: 80x80x5mm

**CUSTOM POSTS

10 Division Horse Feeder

Hot dip galvanised 'tombstone' tubular feeder

- 10 Space
- Diameter: 1750mm
- Height: 1220mm
- Frame: 41.2 x 1.5mm
- Mesh: 50 x 50 x 4mm
- 22 gauge galvanised sheeting

Feeder Extension

Hot dip galvanised 5 space feeder extension

- Frame: 41.2 x 1.5mm
- Dividing Bars: 41.2 x 1.5mm
- Height: 4'
- Width: 5' 6.5"
- Gap: 11.5"
- 22 gauge galvanised sheeting

NOTE: We do not recommend lifting with a front loader!

ALSO AVAILABLE IN 10 SPACE

20 Division Cattle Feeder

Heavy hot dip galvanised feeder

- 20 space
- Diameter: 1750mm
- Height: 1220mm
- Gap: 305mm
- Frame: 41.2 x 1.5mm
- Dividing Bars: 41.2 x 1.5mm
- 22 gauge galvanised sheeting

Hay Basket

Hot dip galvanised hanging hay basket

- Mesh: 50 x 50 x 4mm

2.5ft & 4ft AVAILABLE

24 Division Sheep Feeder

Hot dip galvanised tubular sheep feeder

- 24 Space
- Diameter: 1600mm
- Height: 1220mm
- Gap: 108mm
- Frame: 32 x 1.5mm
- Dividing Bars: 25 x 1.5mm
- 22 gauge galvanised sheeting

Corner Hay Rack

Hot dip galvanised corner hay rack

- Suitable for horses

NEW
2019!

8ft
ALSO
AVAILABLE

4' Hanging Trough

Hangers with punched holes for trough security and livestock safety

8' Cattle Trough

Introducing our new 'V' shape cattle troughs, designed to ensure feed will gravitate towards the centre of the trough!

CATTLE
TROUGHS WITH
NEW 'V'
SHAPE
PAN!

4' Calf Trough
8' Calf Trough

Calf trough with hot dip galvanised legs and endplates

- 16 gauge sheeting

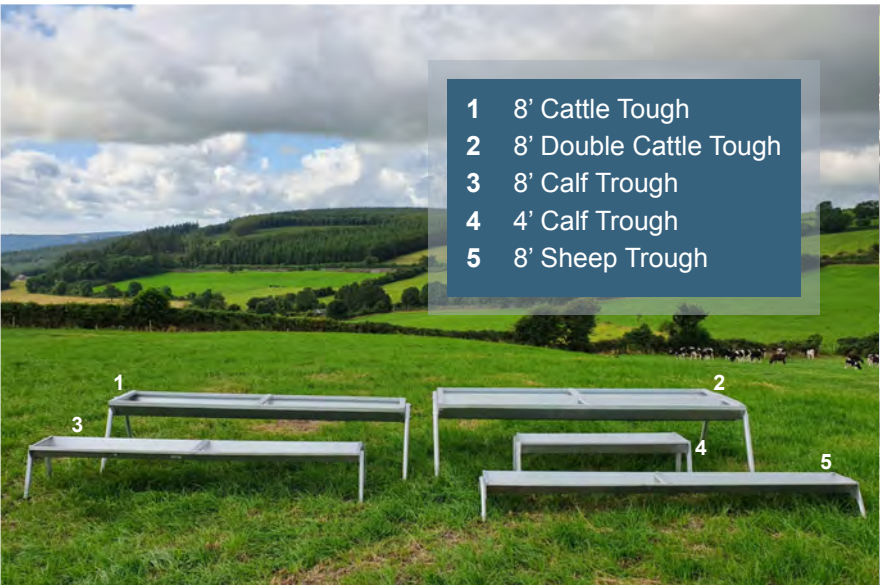

8' Double Cattle Trough

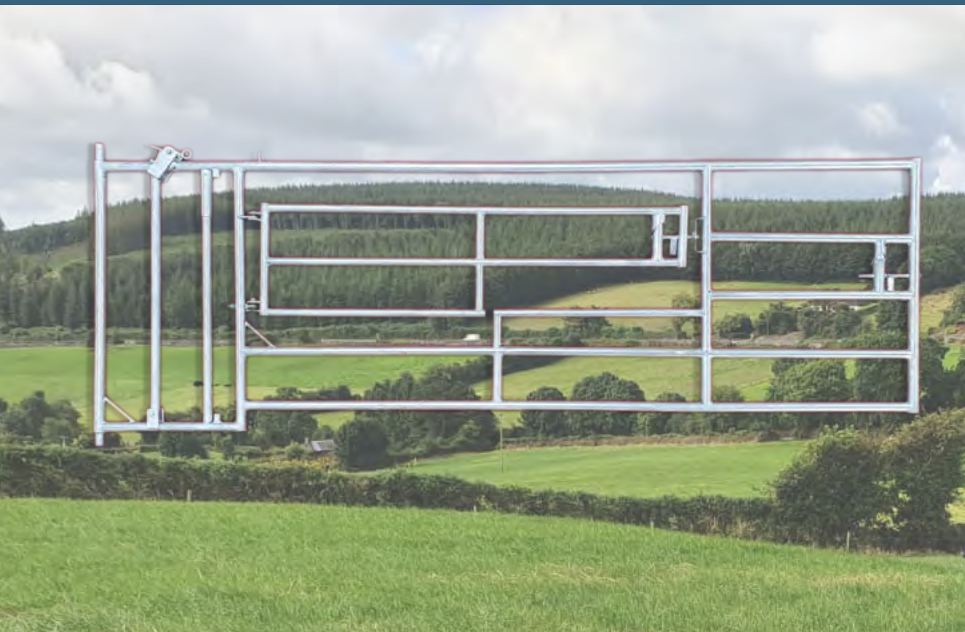

Our new 'V' shape also available in our double cattle trough.

8' Sheep Trough

Newly designed centre bar for strength and easy lifting.

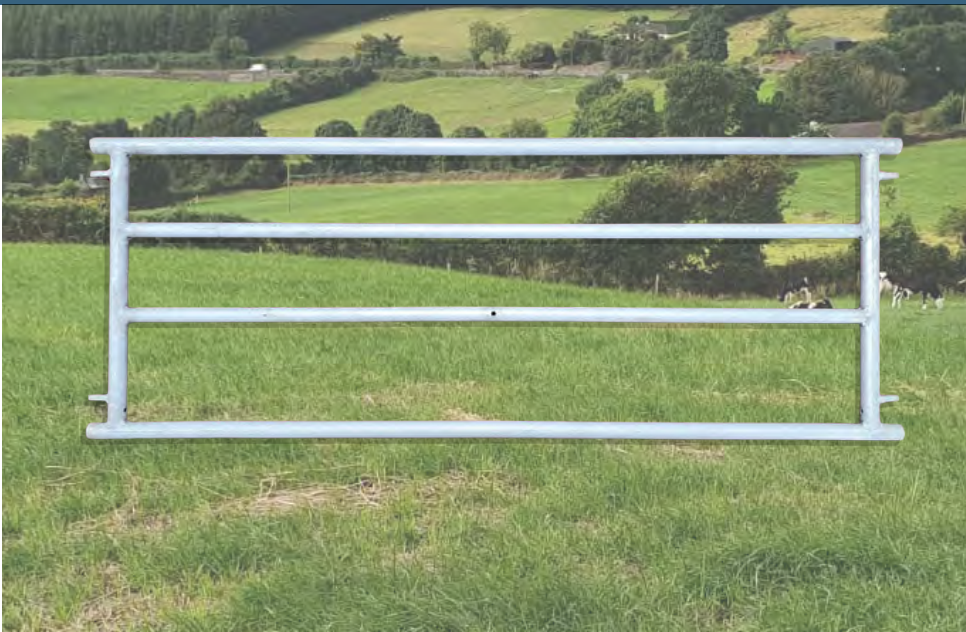

Calving Gate

- Hot dip galvanised calving gate
- Width: 12'
 - Allows for increased control and safety during calving
 - Hanging posts also available

Standard Penning Section

- Hot dip galvanised penning section
- Width: 8'
 - Frame: 2.8 x 48.3mm

Penning Section Gate with Folding Step

- Hot dip galvanised penning section gate
- Width: 8'
 - Step swings down for easy access to animals
 - Frame: 2.8 x 48.3mm

Standard Penning Section Gate

- Hot dip galvanised penning section gate
- Width: 8'
 - Frame: 2.8 x 48.3mm

Semi Automatic Crush Gate

- Heavy duty hot dip galvanised cattle crush gate
- Height: 176mm
 - Top width: 95mm
 - Bottom width: 74.5mm

Crush End Gate

- Hot dip galvanised crush gate end
- Width: 2.5'
 - Height: 3'

Diagonal Feed Barrier

- Hot dip galvanised fixed diagonal feed barrier
- Material: Box Iron 100 x 50mm
 - Height: 900mm
 - 15' 3" with adjustable brackets
 - Minimises waste in feeding
 - Reduces bullying

Hinged Version
also available
for all feed
barriers

Roundtop Anti-Climb Barrier

- Heavy duty galvanised panel
- Height: 2m
 - Width: 3.5m
 - Mesh: 39 x 253mm
 - Vertical wire diameter: 2.5mm
 - Horizontal wire diameter: 3.5mm

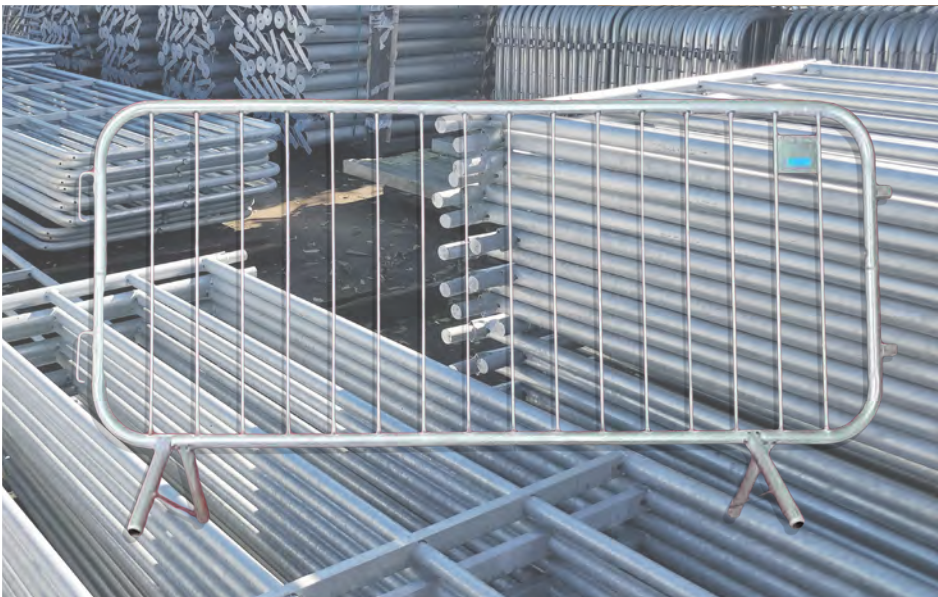

Cranked Box Feed Barrier

- Hot dip galvanised fixed cranked feed barrier
- Material: Box Iron 100 x 50mm
 - Height: 900mm
 - 15' 3" with adjustable brackets
 - Minimises waste in feeding
 - Reduces bullying

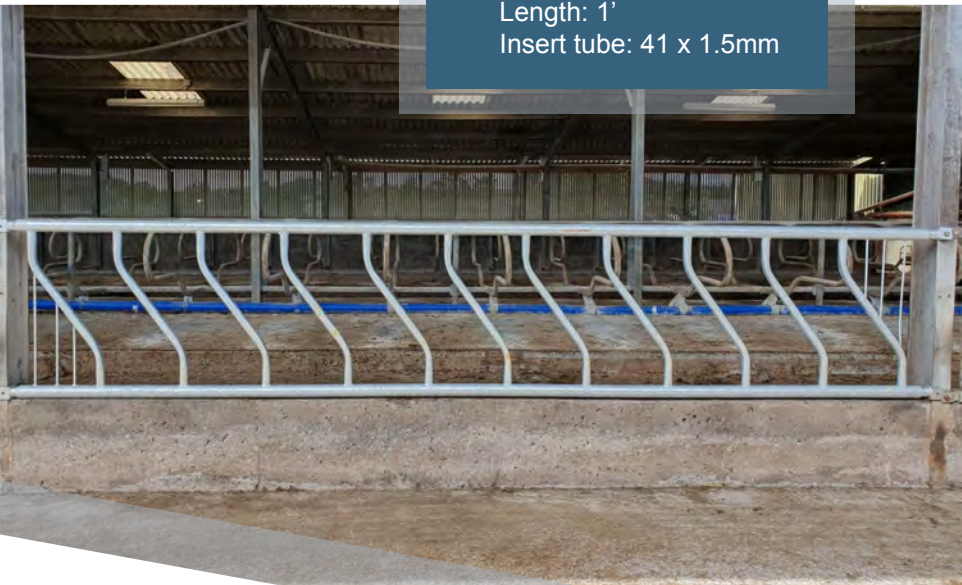

Adjustable Brackets
Attachable at both ends
Length: 1'
Insert tube: 41 x 1.5mm

Pedestrian Barrier

- Crowd control barrier
- Height: 1.1m
 - Width: 2.2m
 - Galvanised tube: 38.1 x 1.2mm
 - Barriers can be linked in chain

Cranked Tube Feed Barrier

- Hot dip galvanised fixed cranked feed barrier
- Material: Tube 63mm
 - Height: 900mm
 - 15' 3" with adjustable brackets
 - Minimises waste in feeding
 - Reduces bullying

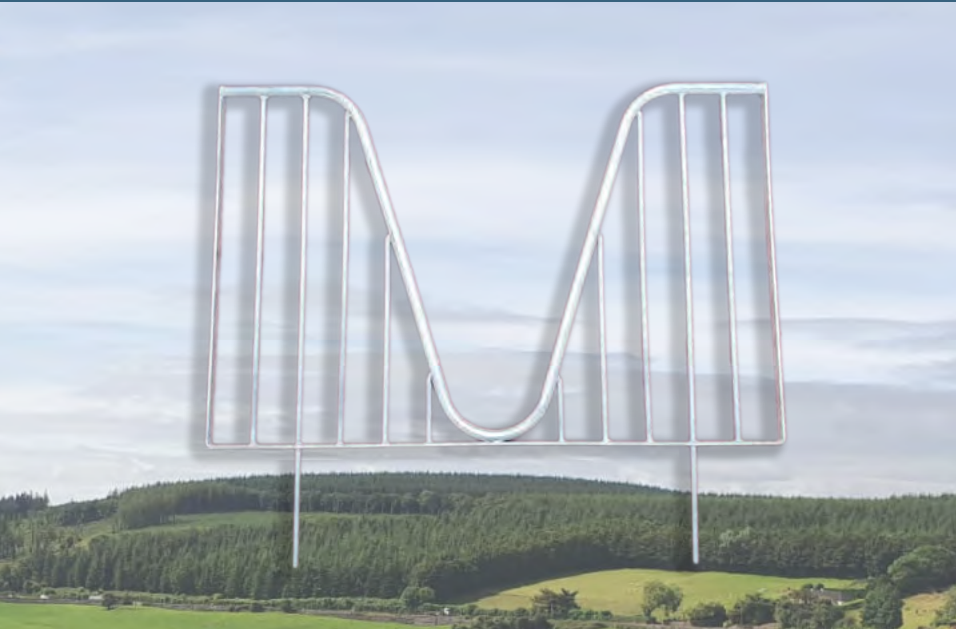

Rubber Fence Block

- Weight: 20kg
- L: 770mm, W: 205mm, H: 130mm

Fence Coupler

- Galvanised fence coupler

Anti Weave Stable Door Top

Hot dip galvanised anti-weave

- Reduces weaving habits in horses
- Width: 1169mm
- Height: 706mm

Indestructible Water Bucket

Capacity: 30 litres

Indestructible Bracket Bucket

- Comes with a hanging bracket.
- 2 different types of brackets available.
- Available in HDPE or Flexible TPE

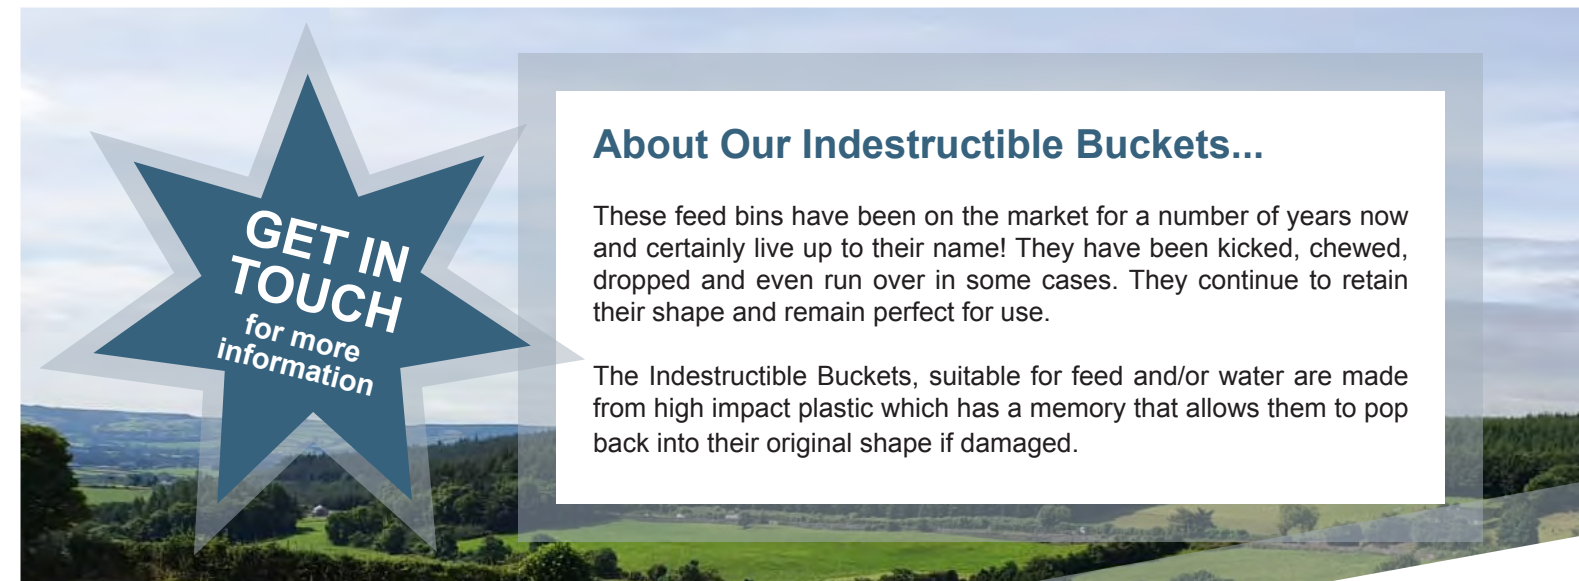

Indestructible Safety Bucket

- Developed ideally for yearlings, mares and foals
- The bin is flexible, therefore minimizing potential injuries
- Comes with a hanging bracket

Indestructible Hanging Bucket

- Suitable for hanging on gates and railings.
- Available in Rigid HDPE only

About Our Indestructible Buckets...

These feed bins have been on the market for a number of years now and certainly live up to their name! They have been kicked, chewed, dropped and even run over in some cases. They continue to retain their shape and remain perfect for use.

The Indestructible Buckets, suitable for feed and/or water are made from high impact plastic which has a memory that allows them to pop back into their original shape if damaged.

Cronin's Hardware
Ballylickey, Bantry, Co. Cork

At Cronin's Hardware and Agri we are proud to stock MMG products due to their reliable service, product efficiency, and wide range of well manufactured agri equipment at extremely competitive prices!

Dunnes Sawmills
Thurles, Co. Tipperary

Products are of very good quality and well made. The staff are extremely friendly and they have great customer service when we have special orders.

David Brown
Co. Waterford

We installed the MMG silage feed barriers on our farm over 10 years ago and they are a very good, strong and sturdy feed barrier. They have been a great addition to our farm and still to this day look as good as the day they went in to our shed!

Kevin @ Clifden Supply
Clifden, Co. Galway

I've been dealing with MMG since I began working in Clifden Supply Center over 25 years ago. The friendly staff have provided a great service over the years along with excellent products. Many thanks to Michael and the team.

Brian Fallon Hardware
Co. Longford

We at Brian Fallon Hardware in Longford keep MMG gates in stock. The heavy gates are of great quality and come with a double latch. The medium gate is the best on the market! It's a proper medium, not a light, ideal for fields - they would be our best seller. We also keep their round feeders, they are good value for money. We also keep a few sheep gates in stock, a proper strong gate!

We are the only gate manufacturer to carry the Guaranteed Irish logo and are proud to support all Irish companies! Now more than ever there is a necessity to support our own economy and local jobs, particularly in the agricultural sector. We are proud to be Guaranteed Irish!

A massive thank you to our existing customers across the country for their continued support throughout the years. We are very excited to welcome new customers on board in the future! Please do not hesitate to get in touch - we are only delighted to help!
